## Principal For A Day

One of the items up for auction at the Term 3 Trivia Night was Principal for the Day. Both Emma and Lucy were the lucky recipients and so spent the day as The School Principal. It gave them the opportunity to experience a day as Principal. They made some great decisions about homework that were well received by all the students.

"I learnt that the role of Principal was very important to the school and it's teachers. To be Principal, you have to be responsible because the whole school is depending on you. This experience was fun and boring but mostly I had lots of fun." Emma

"I loved being the Principal even though there were so many jobs to do. I liked it because I love doing jobs" Lucy

## Community Loss

Our community has been deeply saddened to learn of the tragic death of one of our ex students. A family which will never be the same again and a community that is sadly affected. To the family, their friends and friends of the deceased we send our deepest sympathies. It is through events such as this that we wonder how do we provide mechanisms to better prepare our young persons for life ahead? We all teach our children right from wrong, when it is best to walk away or how to seek help and how to be supportive of others. As part of the PD/H/PE curriculum we construct scenarios in which children get to role play. They then have opportunities to practise these skills in real life at home and school. Through these opportunities, with our support, we help them to learn from mistakes and to prepare for the bigger school of life.

If you or your children have been affected by this or other recent tragedies, please see your GP for support, or let us know how we can support your children here at school.

## STEM Professionals In Schools

We have submitted an EOI to be included in the CSIRO's 'STEM Professionals in Schools' program to support the exciting implementation of STEM in new and existing school programs. CSIRO will facilitate a dynamic partnership with Science, Technology, Engineering and Mathematics (STEM) professionals in a STEM related field to work with schools. The Federal Government funds STEM Professionals in Schools and school participation is free. We should know whether we are successful or not during early Term 1 – 2019.

## Lost Property

Once again, we are faced with a mountain of lost property, taking on the form of a Behemoth.

Please ensure you have looked for any lost items before our last school day on Wed 19 December. All property not claimed will go to the uniform shop for resale, to charity or be thrown out.

## Student Reports

Semester 2 reports will be sent home with students on Friday 14 December. It is important that you take the time to read about your child's strengths and areas for development. It is also important that to ensure your child further develops a love of school and learning, you celebrate his/her every effort. You should feel very proud of your child's efforts... never feel disappointed. Although this scholastic year is drawing to an end, learning doesn't stop. If there are some areas for development, your child's teacher for next year will be able to continue on with the work that this year's teacher has done ...part of life-long learning.
